JavaScript
Programming Basics

English language courses- Level B1,
B2

Online programming courses

Languages

Bulgarian Native or Bilingual Proficiency

English Full Professional Proficiency

French Elementary Proficiency

Teodora Ivanova

Web Developer

Profile

I have experience with VMware virtual machines and working in Linux and Windows environments. I also hold an advanced certificate in JavaScript. My skills include backend development with Python, C, and C++, and working with relational and non-relational databases using XAMPP and SQL. In information security, I've used tools like John the Ripper and BWAPP for penetration testing.
